

# RELI PROGRAMS

**LIshines:** Using the sun's plentiful energy to light our homes or heat our water saves money and preserves our environment. RELI's solar calculator offers guidance for buying solar panels, calculating your LIPA rebate & tax credits, and finding qualified installers.  
[www.LIshines.org](http://www.LIshines.org)

**GreenAAA:** Looking for an energy-efficient bulb or a green builder? RELI's GreenAAA program and innovative GreenAskAnswerAct service gets you expert answers on all your green building questions.  
[RenewableEnergyLI.org/greenAAA.cfm](http://RenewableEnergyLI.org/greenAAA.cfm)

**LI-CAN:** Our LI Climate Action Network offers speakers, speaker training and Local Action Networks to take grassroots action on global warming. Go on the Low Carbon Diet and learn how to lose 5,000 pounds of harmful Greenhouse Gas Emissions. Sign up now at

**RELI's MISSION**

*Renewable Energy Long Island is the only membership-supported, not-for-profit organization on Long Island focused solely on promoting clean, sustainable energy use and generation for Long Island.*

**RELI** seeks public participation in energy policy decisions to encourage energy efficiency and use of renewable energy sources, and to protect our environment, economy, and public health.

An energy efficient home saves money and cuts carbon emissions

**WHY WE NEED RENEWABLE ENERGY—NOW**

Now more than ever we realize the importance of having domestic sources of safe, clean, and renewable energy.

Using renewable energy and energy efficiency is the best way to protect us from the roller-coaster ride of a volatile global oil and gas market. Sustainable energy practices keep our money in the local economy to create jobs, and protect our environment by reducing emissions of toxic pollutants and climate-changing greenhouse gases.

Energy efficiency, solar power, wind turbines, fuel cells, biofuels, hydro, and ocean power are some of the clean energy technologies available to us today.

**RELI** informs the public and policy makers of these smart energy choices and works to put clean energy technologies into the hands of Long Islanders.

**HELP BRING CLEAN ENERGY TO LONG ISLAND—TODAY!**

Wind power is abundant & clean

Become part of the solution.

Become a member of **RELI** today and help make the switch to reliable, clean, and environmentally friendly energy sources.

To become a member, complete the form to the left or join online [www.RenewableEnergyLongIsland.org/join.cfm](http://www.RenewableEnergyLongIsland.org/join.cfm)
